SUMMARY

Product Manager with 4+ years across product and engineering at Intuit and Goldman Sachs, drawn to ambiguous customer problems that require deep discovery and technical thinking. Known for bringing structure to complexity, uncovering the right problems, translating them into product strategy, & partnering across teams to bring solutions to life. My Experience spans enterprise SaaS, AI, and platform products from 0-to-1 discovery through launch and scale.

EXPERIENCE

PRODUCT MANAGER | INTUIT

Oct 2024 – Present

QuickBooks / Intuit Enterprise Suite – Projects & Extensibility

Bengaluru

- Analyzed 5K+ customer signals to identify reporting as the #1 pain point, shaping roadmap priorities and driving 30% of identified opportunities to scope or launch
- Owned the enterprise-readiness roadmap for QuickBooks Projects across 5 workstreams, aligning FY27 OKRs and quarterly investments to the highest-value customer and growth opportunities.
- Led the 0-to-1 development of an AI-powered project management agent for mid-market businesses, defining workflows that let customers setup projects, build budgets, and track costs through natural language.
- Conducted discovery with construction businesses to uncover job-costing and payroll integration gaps, then defined an end-to-end labor-costing experience spanning project management, payroll, time tracking, and data migration.
- Co-Launched Custom Objects, a no-code data modeling platform for 4.8K mid-market customers, enabling extensible business objects across all the core platform workflows.
- Shipped AI-powered Dimension Recommendations trained on historical transaction patterns, driving 33% acceptance rate across 325+ mid-market companies and automating 1/3rd of dimension assignments.

PRODUCT ENGINEER | GOLDMAN SACHS

Jul 2022 – Sep 2024

Commercial Real Estate Mortgage Platform

Bengaluru

- Built and owned an internal asset-management product for commercial real-estate mortgage data, designing a maker-checker workflow that reduced error-correction time by 32%.
- Led a proof of concept for third-party application integration, defining the integration workflow and reducing manual data reconciliation by 40%.
- Co-led a hackathon-winning AI conversational search prototype for contextual knowledge retrieval, taking the concept from problem framing through working prototype and stakeholder demo.

EDUCATION

IIIT Hyderabad (International Institute of Information Technology)

Hyderabad, IN

B.Tech + MS by Research in Computer Science

Aug 2017 – Jul 2022

- **Gold Medalist for All-Round Excellence**, awarded for outstanding performance across academics, leadership, sports, cultural activities, and campus event contributions.

AI PROJECTS

Launch of AI-Powered Customer Insights Platform

June 2023 - Present

- Led the end-to-end development of a scalable AI-driven platform, enabling actionable customer insights
- Designed a user-centric interface that improved adoption rates across 50+ enterprise clients
- Delivered the project under budget via efficient resource planning and securing cross functional buyin.

SKILLS

Product: Product Strategy, Roadmapping, Customer Discovery, User Research, VOC Analysis, Prioritization, Go-to-Market, Enterprise SaaS

Data & Experimentation: Product Analytics, Experimentation, SQL, Mixpanel, Amplitude, Redash, QuickSight

Design: UX & Workflow Design, User Flows, Wireframing, Figma

AI & Build: AI Product Development, LLM Evaluation, Rapid Prototyping, Claude

Tech: Python, Java, SQL, REST APIs, AWS, Db2, MongoDB

Leadership: Cross-functional Leadership, Stakeholder Management, OKRs, Executive Communication
